

# Christina Truong

## Web Developer + Educator

As a developer, I specialize in creating modular and scalable front-end architectures. As an educator, I focus on creating inclusive learning environments, instructor training and curriculum development. I'm also a certified [BODYPUMP](#) Instructor for GoodLife Fitness!

---

## Work Experience

### Front-end Developer & Educator

INDEPENDENT / FREELANCE

January 2012 - Present

Provides various front-end related services ranging from development work, consultations, speaking engagements, corporate training, workshops and online courses.

See more at [christinatruong.com](http://christinatruong.com).

### Director of Curriculum

LADIES LEARNING CODE

July 2014 - February 2016

Created and managed all curriculum and instructor training for 20+ Canadian chapters. Responsible for all tech related duties.

Key contributions:

- Created 9 new workshops focusing on HTML, CSS, JavaScript, jQuery, Wordpress and Responsive Web Design.
- Created all Hackapalooza content (2 day conference style event), consisting of 2-4 hour workshop sessions focused on front-end coding languages and web development related topics.
- Lead instructor and created curriculum for the Digital Skills part-time program.
- Provided training for all instructors, in all Canadian chapters, focusing on creating an inclusive and engaging learning environment.
- Maintained the [ladieslearningcode.com](http://ladieslearningcode.com) website.
- Created interactive slide deck template for consistent national workshop branding.
- Volunteer lead instructor from 2011-2014 for Toronto workshops and several chapter launches.

### Lead Front-End Developer

FIELD ID

March 2013 - February 2014

Lead the front-end development for in-house safety inspection software.

Key contributions:

- Responsible for setting code standards for the front-end development.
- Created a fully customized front-end framework, including UI/UX.
- Standardized the site architecture and design. The framework contains reusable components and extensible classes for customization and flexibility.
